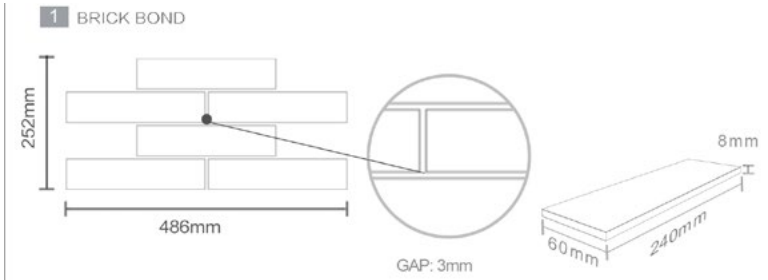
DOT Verklebung

Die neuartige DOT Verklebung birgt für die Mosaik Verarbeitung ungeahnte Möglichkeiten. Die Steine werden einzeln punktuell (Dot) miteinander verklebt, sodass die rückwärtige Matte entfällt. Dieser Prozess erhöht die Adhäsionskraft des Klebers und verbessert die Klebeeigenschaften in Nassbereichen.



DOT Mounting

The new style of DOT mounted offers new possibilities for the processing of mosaics. Single stones get gluied point by point (Dot) which makes the backsided net redudant. This process raises the adhesion force significantly and improves the adhesion properties in wet areas.

Darf es puristisch sein?

Die HUH Mosaik Architekturserie besteht aus 4 Steinformaten (23x23/23x48/48x48/98x98mm) und aus 5 klassischen Farben in glänzend und matt. Gestalterisch passen die Formate im Fugenschnitt zusammen und erlauben hierdurch unzählige Kombinationsmöglichkeiten.
Die Serie wird teilweise in einigen Farben lagermäßig durch weitere Steinformate (22x78mm/23x48&10,5x10,5mm), Netzanordnungen und Farbmischungen ausgeweitet.
Selbstverständlich sind bei Bedarf auch diverse andere Kombinationsmöglichkeiten in Farb- und Mountingvarianten mit zusätzlicher Lieferzeit erhältlich.

May it be puristic for you?

The HUH mosaic architecture series is based on 4 stone formats (23x23/23x48/48x48/98x98mm) and on 5 classical colours in glossy and matt. Creativly seen, all formats fit with the joint linings and allow infinite possibilities of combinations. The series gets already enlarged in some colours by further stone formats (22x78mm/23x48&10,5x10,5mm) different mounting variations and colour mixes.
Of course, you can get on request further other combinations and colour/mountings with additional delivery time.

In addition, you can use our folder „Mosaikmappe A"!

Sommerzeit ist Pool Zeit!

Die HUH Mosaik Poolserie (papierverklebt) besteht aus 4 verschieden großen Poolbildern in der zeitlos eleganten Poolfarbmischung. Im Gegensatz zu netzverklebten Mosaiken kommt diese Variante in vorderseitiger Papierverklebung, sodass das Material noch näher und fester im Fliesenkleber haftet. Auf Wunsch und gegen Lieferzeit sind viele andere Farben und Formate bestellbar. Sprechen Sie uns an!

Verlegehinweis Papierverklebung/ Installation guide for paper mounting

Papierverklebt? Kaum Mehraufwand!

Traditionell wurde Mosaik immer vorderseitig papierverklebt. Tragen Sie wie gewohnt den Fliesenkleber auf die gewünschte Fläche auf und pressen Sie die Mosaikmatte gleichmäßig und fest an. Feuchten Sie nun mit einem Schwamm das Papier von außen an und ziehen Sie es ab - fertig!

Paper mounted? Barley extra effort!

Traditionally, paper mounted mosaic has always been installed.
Use grouting as usual and press the mosaic sheet evenly and firmly.
Now, just moisten the paper with a sponge and peel it off slowly - ready!

Warum Papierverklebt?

Der Wegfall des Mosaiknetzes führt dazu, dass einzelne Mosaiksteine noch besser am Fliesenkleber haften.

Farbauswahl / Colour selection

Why paper mounted?

The elimination of the mosaic net gives a better adhesive effect to each single mosaic stone.

Das Lüster Verfahren während des Produktionsprozess erzeugt durch verschiedene Lichtbrechungen ein changierendes Spiel leuchtender Farben.

Using lustres during the production process creates different light refractions and so a chatoyant overwhelming interplay of luminous colours.

Serie/Series Ice Cube

Hinweis!/Note!

Durch ein spezielles Herstellungsverfahren wird eine „Bruchoptik“ innerhalb des Glases hervorgehoben. Hierdurch wird allerdings während des Prozesses die strukturelle Integrität des Glases gemindert. Daher empfehlen wir für die Anarbeitung am Rand, entweder die Steine innerhalb der Matte auszutauschen oder aber aus der Serie und Farbgebung eine weitere Matte mit kleineren Steinen für den Randbereich zu nutzen und diese anzuarbeiten. Alternativ können Sie eine spezielle Glasmosaikzange oder einen hochwertigen Nassschleifer nutzen.

A special production method helps to emphasize the broken glass structure within the mosaic itself.
Hereby the structural integrity gets significally reduced during the process.
That is why we recommend using mosaics within the same series/colour with smaller stones for the sides/ends of the sheets, You can use alternatively special glass mosaic pliers or a good quality water cooled sharpening machine.
